

**The sims 4... Origin apparently NOT running, but I can find no error dialogue. :**

How do I sign in to Origin? Right click Origin and choose Help. Click Troubleshooting. Click Add an Event and enter the following information in the text box, then click Add: Event Time Event Type Event: User not found Cancel You should now see the error listed in the text box again. So, when my roommate opens the window to play the game, the error message pops up again. Re: The Sims 4 Origin is not running. To fix this problem, do the following: •Please upgrade to the latest version of Origin. If it does not work, download the Origin installation file and install it again. If this option does not work, try to download the Origin client from the Internet again. This client should be compatible with your computer. In the download window, do not just download the client application, but the complete Origin installation package, as this option is the most effective solution. •You can uninstall the previous version of Origin and install the latest version of Origin again, that will open the game again. Re: Origin is not running This error message appears when your Internet connection is not available. Try to get rid of the message by checking again the compatibility with the latest version of Origin and try to download again the fresh version of Origin. •This problem can happen when the game has been running for a long time. You must stop the game, and restart the game to get rid of this error. •Close all the game tab and open the main page of the game, and click again on Play for the game to restart. On Windows XP, In the Start menu, select All Programs and open Origin. In the window that appears, select About Origin, and then click the Help button. Re: Origin is not running You might be missing the right document that allows you to open iTunes (and thus Origin) after the game has been closed. Go to %appdata%\electronics\iTunes . Origin not running trial on mac 1. Close Origin & open up App Store 2. Click the big blue arrow to the left of your Origin icon 3. In the top right hand corner click Open App 4. The App Store should open up, under the heading "Your Apps" 5. Click on the icon in the top left hand corner that says "Installed" The Sims 4

## Download
